

Dear Parents

What a great start to the year. It feels so good to be back in the building with our students.

It is very important that you and your child go through the Home Screening each morning together. If you do not, the teachers will ask them. We continue to have only one special meet with a cohort a day. We are working hard to keep everyone safe. Please continue to have these discussions with your children everyday. The masks need to be worn properly. Please check out the video Dr. Greenberg prepared for you on our website.

Many of you who have stopped by school have commented on the building improvements. We are so blessed that Home & School raised money for our new entrance, new office and to enhance school security. We were also fortunate to have a fund that was bequeathed to us for school facility upgrades and as well as personal donations that had specific purposes (playground mulch or technology). We were able to paint, update our main hall bathrooms, repair roofs, fix the gym & some classroom ceilings and lighting to name a few. We are beginning to replace some of the classroom heaters that are original to our building. Many little things were done this summer to continue to enhance our learning environment. All and all we are very lucky to have these donations. Please know that these upgrades were not done with tuition funding. Our tuition and parish support to our school budget are used to run our school day to day.

This October we will have a Virtual Run with the Archdiocese of Milwaukee, Soles for Catholic Education Walk. Since this is our main fundraiser for the Fall, we are going to ask for you to be all in, to do your best to really get our goal. More to come!

All things are moving forward and I thank you again for your ongoing support and patience. Life is good and I am very blessed to work in such a giving and caring community.

Terry Maus
Principal
